

Ralph Getz Retirement

Please join us in extending our best wishes to Ralph Getz, who is retiring from CASS Polymers on August 1. Ralph has worked for over 48 years in the construction materials industry beginning with WR Grace & Co, PPG Industries, Selby Battersby & Company, Harris Specialty Chemical and finally with PolyMax/CASS Polymers where he spent the last 20 years. He will be greatly missed by colleagues and customers alike.

He is gifted with a keen epoxy mind and a cooperative nature. Ralph pioneered our decorative product line, PolyMax, when it was just starting out. He brought in much of the early new business which today is the backbone of our decorative product line. His experience with hangar systems for the aviation industry resulted in many sales in the US, Canada and overseas. He was instrumental on several jobs where competitors failed and PolyMax succeeded making sure the installations went smoothly.

He will be greatly missed and impossible to replace.

Ralph enjoys traveling and meeting people. Global expeditions have taken him to Canada, Central America, Europe, Russia and many other countries. People who know him and visited with him at World of Concrete over the years remember the different Scottish tam/caps he has worn from his trips which has been a source of conversation and an attention at the PolyMax/CASS booth.

We know all of you will join us in wishing Ralph well as he starts a new chapter in his interesting life. He is eager to catch up on the traveling he loves so much.

Taking over for Ralph in an interim position is Josh Thompson who has over 15 years in the industry.

Josh Thompson
